

Cornwall 1841 Census Extracts - Rosewarne

The following list of Rosewarnes was extracted from the 1841 UK census by Vic Rosewarne who has kindly made his transcript available for the benefit of other researchers.

I have checked the transcription against the original and made some corrections, but cannot guarantee that the list is free from errors or omissions. As with any transcript, you should **always** check the original records if you think an entry may relate to your family. Not only will this verify that the details are correct, but the original record may well contain additional information.

The census was taken on the night of 7 June 1841. The names are arranged by household and parish, with name, age and occupation as recorded in the census return. (You should note that in the 1841 census ages for people over the age of 15 were supposed to be rounded down to the nearest 5 years, although this convention was not uniformly followed.) The Other Details column contains additional information such as head of household, other people in household, birthplace, etc.
