

## Cornwall 1851 Census Extracts - Rosewarne

The following list of Rosewarne was extracted from the 1851 UK census by Vic Rosewarne, who has kindly made his transcript available for the benefit of other researchers. I believe this to be a complete list for the county of Cornwall.

I have checked the transcription against the original and made some corrections, but cannot guarantee that the list is free from errors or omissions. As with any transcript, you should **always** check the original records if you think an entry may relate to your family. Not only will this verify that the details are correct, but the original record may well contain additional information.

The census was taken on the night of 30 March 1851. The names are arranged by parish and household, with name, marital status, age and occupation as recorded in the census return. The Status column indicates whether married (M), unmarried (U) or widowed (W). The Other Details column contains any additional information included in the census return.
