

Cornish Probate Records (N - Z)

This file contains abstracts of probate records held mainly at the Cornwall County Record Office (CRO). Most of them relate to my own family or to names I am researching.

The abstracts are transcribed from original records at the Cornwall Record Office, from photocopies of original records or from records filmed by the LDS. The records marked with an * are copied from extracts printed in 'The Romance of the Rosewarne' by Gillian Rosewarne, and I have not had a chance to check the original records.

For those records where the reference is a volume and page number, details are taken from a register copy at the CRO, rather than from the original will. If you think a will or admon may relate to your family you should consult the original record, which in most cases will be available at the CRO.

Note: I have made every effort to transcribe the records accurately, but can't guarantee that there are no errors. If you have any queries feel free to contact me.
