

## MARRIAGES - ROSEWARNE (UK - Excluding Cornwall)

The following is an index of Rosewarne marriage and related records extracted mainly from marriage certificates, parish records, the General Register Office (GRO) index and from the International Genealogical Index (IGI). The index is not exhaustive, and if you come across other records please feel free to send me the details for inclusion in the list.

The index is arranged by Given Name and does not distinguish between variant spellings of 'Rosewarne' (e.g. Rosewarn, Roswarn, Roswarne, Rosewarden, Rosewaren, Resworn, etc), all of which are included. I have not included the names Rosewall and Rosevear, or likely variants thereof, as these are distinctly separate names, and to include them would make the index unwieldy. It should be noted, however, that these names do on occasions get confused with Rosewarne, and vice versa.

The date of the event is provided where known, and also the person's residence and father's name where this information is known. The Other Details column contains other information such as status, age or occupation. The Spouse column gives the name of the other party to the marriage. The Parish/Reg Dist column indicates the parish where the marriage took place or the registration district in which it was registered.

While I have endeavored to make the index as accurate as possible, I can't guarantee that it is free from errors. If you come across any please let me know and I will be happy to correct them. As with any index, you should **always** check the original records if you think an entry may relate to your family. Not only will this verify that the details are correct, but the original record may contain additional information about the spouses, and for marriages after 1754, the names of witnesses.
